Transform your home with Richard Burbidge

A new stairway can change the whole look and feel of a home, contemporary or classic, timber, glass and metal combine to catch the eye in a comprehensive range of high quality components that can turn ordinary into fabulous. Our unique and innovative designs mean that most stairways can be transformed in a matter of days. You'll find inspiration in the following collections with useful information and advice on fitting, finishing and maintenance to help you choose the right solution and achieve a perfect result.

HERITAGE

We've been supplying precision crafted materials to discerning craftsmen for over 150 years

STYLE

We work with leading trend analysts and designers to ensure that our products remain at the cutting edge

DETAIL

You can be confident that everything we supply is exact in design and manufacture

For expert advice, call our technical team on: **01691 678 212**

Main picture features: Elements® glass, handrail and brackets
Above pictures feature: Trademark Oak 41mm Stop Chamfered. / Immix® white oak post with gun metal end cap and fittings.

CONTEMPORARY

ELEMENTS[®]
Modern materials +
striking designs

ELEMENTS® STAIR SYSTEMS

Elements® features a choice of metal balusters or glass panels.

A stunning combination of classic metal balusters and contemporary wooden rails, for a traditional staircase with a modern twist.

Consisting of pre-drilled handrails and baserails in white oak with a choice of decorative metal balusters, it makes for quick and easy fitting. Install with our stop chamfer newel to create a look that will suit any home.

Or choose contemporary glass panels and sleek brushed nickel fittings to complement the clean lines of Trademark stop chamfer newel in white oak, to create a look that has a modern edge with a hint of tradition. Elements® with Glass is quick and simple to install using easy fit brackets. It even comes with half width glass panels – ideal for short runs on landings.

Our Fusion Mk2 balusters can also be used with the Glass type handrails to offer even more choice.

ELEMENTS® DESIGN

- Simple to install with easy fit brackets
- Ideal for domestic refurbishment projects
- Toughened glass panels for safety
- Pre-drilled rails for accurate, fast fitting

ELEMENTS® OPTIONS

- Available in unfinished white oak to be finished on site
- Choice of six metal baluster designs or glass panels
- Brushed nickel fittings
- Try a combination of our baluster designs
- Use with Mk2 balusters for a sleek, modern look

Use our online stair planner: www.richardburbidge.com

Main picture features: Elements® with metal plain rake balusters.

Inset picture features: Elements® metal with hybrid single rake balusters. / Elements® Mark 2. / Elements® with Fusion Mk2 balusters.

CONTEMPORARY

IMMIX[®]

Contemporary features +
bright thinking

IMMIX® STAIR SYSTEMS

A stunning combination of white oak handrails and sleek gun-metal connectors with toughened glass panels will bring a distinctive minimalist elegance to any home. Not only that, Immix® glass panels also create a feeling of extra space and light, whilst the metal fittings provide touches of contrasting detail.

IMMIX® DESIGN

- Quick and easy to fit, no structural work required
- 8mm toughened safety glass

IMMIX® OPTIONS

- Available in finished white oak, no varnishing or finishing required
- Stylish gun-metal fittings
- Wall mounted handrails available

Use our online stair planner: www.richardburbidge.com

Form + Function

Fusion® with chrome balusters and fittings.

HERITAGE

Classic details +
perfect proportions

HERITAGE STAIR SYSTEMS

The real attraction of Heritage white oak is in the detail of the craftsmanship. Each component has been carefully designed with quality, safety and durability in mind. Traditional in a wide range of styles, yet like all enduring designs, Heritage spindles and newels look fabulous in any setting. Our 115mm newels and 55mm spindles are perfect for large, grand stairs.

HERITAGE DESIGN

- Wide choice of styles for every situation
- 12 spindle and 10 newel designs
- Perfect proportions and classic details

HERITAGE OPTIONS

- Available in unfinished white oak to be finished on site
- Beautifully turned or square options
- Available in 55mm spindle widths
- Combine two spindle designs for a truly individual look

Use our online stair planner: www.richardburbidge.com

CLASSIC

Elegant design +
rich timbers

CLASSIC STAIR SYSTEMS

Traditional in style with a hint of modern sophistication our Classic Collection is beautifully crafted using the finest natural materials to complement any style of interior. Our craftsmen have added a certain poise and refinement to our best 'turned' designs of spindle and newel, and the warm, mellow tones of straight-grained white oak are perfect in a traditional or modern settings.

CLASSIC DESIGN

- Plain square or classical turned styles
- Continuous or straight handrail design
- Made from the finest natural materials

CLASSIC OPTIONS

- Available in unfinished white oak to be finished on site
- Beautifully turned options
- Available in 41mm spindle widths

Use our online stair planner: www.richardburbidge.com
